Technical requirements:

1. Adopt the national standard wire line JB677-71, common connector materials, nylon:
2. Terminal crimping cable connectors should conform to QCn29009. QCn29010
3. All with waterproof plugs. Gasket plug-in should be installed in place, may not have installed off leakage phenomenon
With sealing plug and butt plug plug terminal, coupled 2.5KPa atmospheres for sealing
Examination may not have leakage, water leakage
4. The figure that all line numbers correspond with the jacket inside the terminal number, diameter, line color icon in strict accordance with the provisions of
5. Harness the wire conduction rate of 100%, the final qualifying office door closed with a PVC black tape, wires exposed
No larger than 1cm, PVC corrugated pipe joints with tape wrapped firmly. Rules. Beautiful
